A two-week exchange program which dental students from overseas can experience the hospitality of academic atmosphere in Universitas Indonesia and learn various perspectives in the fields of dentistry.

Faculty of Dentistry UI provides exchange opportunities for international students who wish to broaden their experience in studying and understanding of the practice of dentistry in Indonesia. We are committed to foster dental students who is capable of being globally active, interested to be a part of international network in dentistry, and have intercultural competencies and sensitivity to other cultures. The goal of this program is to produce future leaders in oral health who are prepared to interact globally.

What Kind of Activities?

1. Exchanging oral health information, and dental education system of each country
2. Expand student’s knowledge in oral health program and health care systems of other countries
3. Attending selected classes and observing various clinical cases
4. Observing oral health programs in public health centers and or suburban areas
5. Cultural exchange

How to Participate?

Ask the international office in your faculty to contact and get the application forms from our office io.dent@ui.ac.id

Fill out the International Student Exchange Application (PDF). All applications should be submitted to our international office email address.

Once you receive approval of your visiting dates from our international office, each student must submit their passport copies and other necessary documents accordingly.
Who have Participated?

Our faculty have hosted student exchange programs with our partner universities, such as: Radboud University MC, Nijmegen (Netherland), Tokyo Medical and Dental University (Japan), Niigata University (Japan), Hokkaido Health Sciences University (Japan), Chulalongkorn University (Thailand), Thammasat University (Thailand), Chung Sang Medical University (Taiwan), Coorg Institute (India) and many more.

Program Fee

**800 USD/student**

*Subject to change upon discussion. Partner institution of Universitas Indonesia may have different program fees according to the agreement between universities. In addition, UI has a UI CREATE scheme for financial support. The availability of program depends on the number of students per term. For further information, contact our international office at io.dent@ui.ac.id*

Student Testimonies

- **The cases are different and we became very good friends with Indonesian students**
  - Agnes, The Netherlands

- **This student exchange program is interesting as this activity enhanced my clinical point of view. I’ve seen rare cases that I have never seen in my country, for sure**
  - Ben, UK

- **I got not only academic part but also cultural exchange experiences**
  - Lin, Taiwan
